Dear, friend

It's my hope that you are doing fine. Hope you are also proceeding well with your daily activities. I am doing fine too. I am in grade III and I prefer reading.

It's my pleasure to let you know that I received the bike you bought for my family. My family and I are very thankful for such a present.

For almost the past two years, we have been using the bike to attend various activities at home. These activities include but not limited to collection of firewood, fetching water and taking manure to the garden.

I love jumping ropes, singing songs and helping domestic works at home.

I cordially wish you all the best in your daily activities.

May the Lord our God bless you abundantly.

I look forward to hear from you.

From: Enjoy.
